Item Description: 2025.88 Approval/ Start Date for Lister Position- Assessing Department

Submitted By: Deanne Vail

Supporting Information/Documentation:

2025.88 Lister. Assessing (002)

Key Terms:

N/A

Executive Summary:

It is necessary to hire a Lister and begin this work as soon as possible to prevent further backlog in the Assessing Department and to accurately pick up growth and value to support the City budget. The current office has been experiencing severe staffing issues and waiting until January to hire a lister is detrimental to the operations of the department and the FY27 budget. This delay would also be a disservice to the taxpayers. Having the appropriate staffing levels helps support employee retention. Due to a variety of circumstances, the Assessing office has not had the appropriate level of staff to meet the needs of the residents and the overwhelming demands that have resulted from the growth experienced in the city over the last three years. Based off of data from the Code Enforcement Office, there is an average of 600 new building permits per year, of which 75% are required to be inspected by the Assessor's office. The Assessor is required to do inspections by statute under Title 36 subsection 328 Part 7, "Physical inspection and inventory of each real parcel and personal property account will take place at least every four years." There are 8,160 real estate parcels within the city, and we anticipate completing approximately 2,000 inspections annually to maintain a cyclical system of inspections.

Detailed Review:

N/A

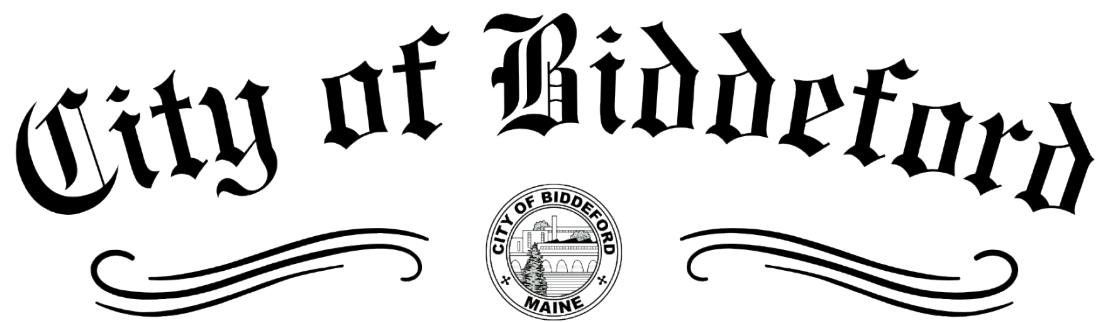

Funding Source:

The FY26 Budget reflects a salary of \$59,717 in line item 21105-60105. The amount was

reduced to half a year of work to begin on January 1, 2026, which is after the current commitment date. However, the accurate salary estimate for a FTE Lister position is approximately \$70,000.00 to \$80,000.00 annually depending on experience.

Staff Recommendation:

Staff recommends approval of the Lister position

2025.88 IN BOARD OF CITY COUNCIL... JULY 1, 2025

BE IT ORDERED, that the City Council does hereby approve of the hiring of a Lister in the Assessing Department starting July 1, 2025 to complete additional required work prior to January 1, 2026. This position has been approved for hire on January 1, 2026 in the FY26 budget in line item 21105-60105.

Supporting Information/Documentation:

2025.89 Financial Aid funding order

Key Terms:

Executive Summary:

To approve funding in the amount of \$35,000.00 for Recreation Financial Aid Funding

Detailed Review:

Each year, the Recreation Department provides approximately \$35,000.00 in financial aid to families for summer camps and youth sports programs. Aid for families is based on need. Applicants are required to fill out an application and provide income information, plus any extenuating circumstances that may create a financial hardship. In 2024, approximately \$25,209 was provided. To date, in 2025, we have awarded \$31,500.00 for summer camp. We anticipate to award an additional \$2000- \$3000 for youth sports and camp scholarships through the end of FY 26.

Funding Source:

\$35,000.00 Funding to come from Recreation Revenue Fund 31206-40296

Robin Patterson, City Clerk

To Biddeford City Council,

Premium Parking has recommended a new rate in addition to the ones that currently exist at locations P4301, P4302, P4304, P4305, P5406, P5407 and P4308.

Based on the data provided from our platform, we have identified that there is an opportunity to generate additional parking revenue – and better service the citizens of Biddeford.

To try and increase parking revenues, as well as customer satisfaction, we propose an additional overnight rate for valid parking starting at 10:00pm and lasting until 7:00am the following day for the cost of \$10.

My team and I are happy to implement this new rate as soon as approval is received from the city council.

If you have any further questions, please do not hesitate to reach out.

Executive Summary:

The Applicant, Forest Green LLC. is seeking to develop two connected buildings with 60-units of senior low/moderate Income (LMI) housing to be located at 641 Main Street (Map 32, Lot 1), within in the Mixed Residential (R3) Zoning District and within the Shoreland Overlay District. The proposed development requires sewer/pump station improvements to the Main Street Pump Station. The Applicant is proposing to contribute \$1MM towards the sewer upgrades, as outlined in the Draft Development Agreement.

Detailed Review:

The Applicant, Forest Green LLC. is seeking to develop two connected buildings with 60-units of senior low/moderate Income (LMI) housing to be located at 641 Main Street (Map 32, Lot 1), within in the Mixed Residential (R3) Zoning District and within the Shoreland Overlay District. The proposed development requires sewer/pump station improvements to the Main Street

Pump Station. Bateman Partners have offered to contribute \$1,000,000. towards the upgrades. This funding would include a sewer connection fee of \$201,600. and a cash contribution of \$798,400. Bateman would re-coup most of their cash contribution as outlined within the attached development agreement.

The City would use the \$1MM towards upgrades of the Main Street pump station. The Public Works and Engineering Department have worked out two possible scenarios:

- 1) The first option is to utilize the funds to upgrade the existing pump station, which will be able to accept additional development within the sewer-shed. This option will allow this development to connect (and be given an "Ability to Serve" letter but additional planned upgrades would need to be made in the future (approximately 5 years);
- 2) The second option would be approximately \$350,000. more expensive but would upgrade the existing pump station and related sewer lines for additional capacity beyond option 31. This additional funding is being proposed by Staff to be utilized from our Sewer Impact Fee Account Reserve Account (#35101-40250).

Funding Source:

1. \$1MM – Bateman Partners (Sewer Impact fee \$201,600. / cash contribution of \$798,400.
2. \$350,000. Funding from the Sewer Impact Fee Account Reserve Account (#35101-40250).

Staff Recommendation:

Staff recommend the Council enter into the proposed Development Agreement to Bateman Partners, LLC. and accept the proposed financing agreement. It should be noted that the Council can approve the proposed Development Agreement with Bateman Partners without allocating the additional \$350K from the City's reserve funds. However, Staff recommends the approval of both items. The Reserve Account Funding request is under another Council Order.

Re: Main Street Pump Station (MSPS) Capacity Upgrade Summary

From: Craig Chekan, Jeff Demers

Date: 06/10/2025

- i. The existing Main Street pump station is currently operating near capacity, especially during wet weather events (inflow/infiltration).
- ii. Major pump station capacity upgrades are required per recently approved Planning Board/development projects.
- iii. Capacity Summary:
 - a) Existing Pump Station Operating Capacity: 400-gpm
 - b) **Minimum Required Pump Station Capacity: 695-gpm**
 - Per the following planning board projects/development:
 - I. Reveler 60 Barra Road: 53,750-gpd
 - Construction Complete/Occupancy Begun
 - II. Westbrook Development (WDC) Barra Road Project: 11,644-gpd
 - Planning Board Approved; Phase 1 to begin construction this summer
 - III. Mike Eon Barra Road Projects: 10,000-gpd
 - Planning Board Approved
 - IV. Bateman Partners Forest Green (Parkview Court): 9,720-gpd
 - Currently in the Planning Board pipeline
 - c) **Maximum Capacity of Downstream Gravity Sewer: 765-gpm**
 - Existing 12"-15" gravity sewer; 2,700-LF from MSPS to Horrigan Court PS
 - **70-gpm** of unallocated/future growth capacity (i.e. 1-2 future projects) until downstream gravity sewer would require upsizing (765-695=70-gpm)
- iv. Capacity Upgrade Options:
 - a) **Full-Buildout Option: \$1.35MM**
 - (2) Submersible Pumps @ 765-gpm: \$225k
 - New 10' Wetwell (**with room for third pump @ 1,225-gpm**): \$725k
 - 10" Force Main: \$225k
 - 10" Valve Pit: \$150k
 - 12" Gravity Line: \$5k
 - Existing Wet Well Modifications: \$10k
 - Bypass Pumping: \$10k
 - b) **Budget Option: \$625k**
 - (2) Submersible Pumps @ **765-gpm**: \$225k
 - 10" Force Main: \$225k
 - Existing Wet Well Modifications: \$125k
 - Bypass Pumping: \$50k
- v. Staff Recommendation:
 - a) Staff recommend proceeding with the full-buildout capacity upgrade option (\$1.35MM).
 - This would allow a third submersible pump to be easily added in the future (\$100k), once the unallocated 70-gpm is developed (i.e. 1-2 future projects)
 - Note: adding a third pump in the future will require the downstream gravity sewer to be upsized (to get to 1,225-gpm capacity)

- b) Adding a third pump to 'the budget option' in the future would require a new wetwell (and would be tricky/less-efficient/likely-more-expensive than going with the full-buildout option from the get-go)

vi. Funding Sources:

a) Bateman Partners Forest Green Contributions: \$1MM

- Sewer Impact Fee: \$201,600 (typically paid at building permit)
- TIF Credits: \$798,400
- NOTE: these funds are dependent on Forest Green receiving Maine State affordable housing grant funds this Fall; Bateman Partners would not pull building permits until May 2026 (i.e. the City would need to wait until then to begin construction). If Bateman Partners doesn't receive funding, the City will require alternative funding.

b) Old Sewer Impact Fee Revenue Account: \$350k

- Account Number: 35101-40250
- Account Balance: ±\$800k

The developer and the City have entered into an agreement where Bateman Partners shall contribute \$1,000,000 to the City of Biddeford. This amount includes the required sewer impact fee (\$201,600) and a voluntary cash donation in the amount of \$798,400., paid as TIF Credit. As such payments to the City from the developer shall:

- A. **Sewer Impact Fees: Prior to the issuance of the 1st building permit Bateman Partners shall pay their sewer impact fee of \$201,600.** As agreed, these funds will be utilized by the City to upgrade the Main Street pump station with the monetary contribution/credit listed below in item "B".
- B. **Main Street Pump Station Sewer Upgrades: A monetary contribution of \$798,400 shall be paid by FG prior to the required Preconstruction Meeting is scheduled.** These funds shall be allocated explicitly toward the upgrade of the Main Street pump station. This contribution is a prerequisite for the issuance of an "Ability to Serve" letter by the city. The Applicant's commitment enables the City to move forward with necessary infrastructure improvements to increase sewer capacity within the service area.

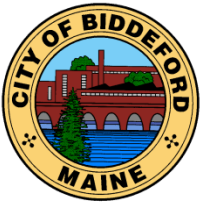

NOTE: these funds are dependent on Forest Green receiving Maine State affordable housing grant funds this Fall; Bateman Partners would not pull building permits until May 2026 (i.e. the City would need to wait until then to begin construction). If Bateman Partners doesn't receive funding, the City will require alternative funding.

C. Required Inspections:

- i. Erosion & Sediment Control Inspections
 - 1. Needs to be completed by a City-approved 3rd Party Inspector and paid by the Applicant via the inspection fee escrow being held by the City.
 - 2. Initial, monthly, and final inspections
 - 3. The City's Engineering Department, at minimum, shall be notified for an initial E&S inspection prior to breaking ground.
- ii. Copies of all inspection reports need to be submitted to the Engineering Department upon the completion of each inspection.
- iii. Stormwater BMP Installation Inspections
 - 1. Needs to be completed by the design engineer
 - 2. Confirming stormwater facilities installed correctly per design
 - 3. Inspection reports need to be submitted to the Engineering Department

1. INTRODUCTION

This application was first reviewed by the Planning Board as a Sketch Plan on April 2, 2025. On May 7, 2025, the project was brought before the Planning Board for "Preliminary Plan" review but was "Tabled" by the Board due to their concerns with the City not being able to provide an "Ability to Serve" the project due to the Main Street pump station being close to capacity. Over the past few weeks Staff has been working diligently with the Applicant's development team, and a solution to the sewer capacity upgrades to serve this development and additional future developments, utilizing this sewer shed has been provided.

In simple terms, Bateman Partners have offered the City \$1,000,000. In up-front utilizing their sewer impact fee of approximately \$183,000. and paying the balance (approximately \$817,000.) in cash. The City would use this money towards upgrades of the Main Street pump station. The Public Works and Engineering Department have worked out two possible scenarios. 1) The first option is to utilize the funds to upgrade the existing pump station, which will be able to accept additional development within the sewer-shed. This option will allow this development to connect (and be given an "Ability to Serve" letter but additional planned upgrades would need to be made in the future (approximately 5 years); 2) The second option would be approximately \$350,000. more expensive but would completely upgrade the existing pump station and related sewer lines. City Staff is scheduled to discuss this funding with the City Council at their 6-17-25 meeting as we are recommending utilizing \$350,00. of the City's funds to upgrade the entire system at this time. Regardless of which option the City Council chooses, with the proposed contribution from Bateman Partners, the City will be able to accept the sewer from this development and future developments within the area. Staff is completely supportive of the proposed "solution" offered by Bateman, and the Public Works Department will issue a "Ability to Serve" contingent upon the agreed upon monetary donation being paid prior to the issuance of the first building permit for the project.

The application is being presented by Doug Renolds, P.E. and Project Manager for Gorrill Palmer Engineers, and Agent for Bateman Partners, LLC., referred to as "Applicant or Applicants". The application is seeking to develop two (2) new apartment block buildings, connected with a shared

The project scope is outlined within the development application and states (shown in *italics*):

The unit breakdown will incorporate forty-two (42) two-bedroom units and eighteen (18) one-bedrooms. The buildings have a footprint of approximately 9,800 SF each, connected by an 800 SF shared entry that will contain an elevator for accessibility to the upper floors of both buildings. The applicant received a districting change from the Saco River Corridor Commission (SRCC) changing from the Limited Residential to the General Development district for areas outside of the 250’ Saco River buffer. The site is identified as a portion of Lot 1 on the Biddeford Tax Map 32. The property is bounded to the north by the Saco River, and to the south with direct frontage along Main Street. This property was originally developed in 1975, with 5 residential buildings consisting of 40 units with associated parking and access ways. Park View Court is a public road which runs through the center of the site and provides access to the existing apartment buildings. The buildings will utilize the existing development entrance and have their own primary access via Park View Court. The existing development footprint is currently approximately 6 acres and will be increased to approximately 7.5 acres. The amount of impervious area onsite would increase by approximately 38,100 square feet (0.87 acres).

Forest Green Apartments – First Floor Plan

2 Proposed Buildings with 60-units (total) of LMI senior housing and associated parking

The application narrative continued stating:

The proposed development requires a parking ratio of 1 space per unit if designed exclusively for, and occupancy is restricted to affordable housing. The Applicant is proposing 63 parking spaces to support the new LMI apartment building, which complies with the City of Biddeford's off-street parking requirements. Within the new parking lot, 14 spaces will be dedicated to the existing development for a total of 77 new parking spaces. Traffic generated by the proposed development is not anticipated to adversely impact the surrounding roadway network given the residential nature of the project. A traffic Evaluation is included in Attachment 4 which includes an analysis of the trip generation, access conditions, and safety. The proposed development is anticipated to be served by public water, sewer, and three-phase power which is available onsite. The site is anticipated to be served by a private solid waste hauler who has not been determined at this time.

The Forest Green Apartments are located off Main Street via Park View Court, which will be the internal connection to the proposed development.

4. GENERAL REVIEW COMMENTS:

- **APPLICATION COMPLETENESS:** This application is for site plan sketch plan review, so the purpose of this memorandum introduces the project/s to the Board, with the desire to identify items the Board believes are important and necessary for the continued review of this plan / project.
- **ZONING:** The subject property is zoned Mixed Residential (R-3) and multi-family dwellings are permitted use within the district. The property is also located within the Shoreland Overlay District. It should be noted that the Saco River Corridor Commission (SRCC) recently approved a reclassification of the property which has now been placed within the General Development 1 (GD!) Overlay Zone. The proposal currently complies with all space, bulk and parking regulations within the zoning district.
- **REVIEW STANDARDS:**

Staff found the Preliminary Plan Application to satisfy City site plan requirements.
- **WAIVERS:** No waiver requests are being sought, currently.

5. STAFF REVIEW COMMENTS:

- 1) This major issue (in red underline below) has been worked out between the Applicant and City Staff. The Applicant has agreed to pay the City \$1,000,000. (sewer impact fee and cash donation) to upgrade the Main Street pump station. This contribution will allow the City to issue a "Ability to Serve" letter. City Staff has also requested that the Council allocate necessary funding to completely upgrade this sewer-shed that would provide additional capacity that can be utilized beyond our lifetimes. This was THE major issue "we" needed to overcome, and regardless which funding option the Council decides, this project may be approved. The Batemans stepped up and offered the City their solution, which in turn allowed Staff to re-evaluate the pump station and build out options. This was truly a great collaboration between the Applicants and the City.

ORIGINAL STAFF COMMENT FROM 5-7-25 REVIEW: The primary design element that needs resolution is the sewer capacity issue. The proposed sewer line would ultimately connect to the existing sewer pump station located approximately 1,500 feet from the proposal to the pump station. The pump station is currently near or at capacity and pump station upgrades will be required to accept the effluent from the proposed development. The upgrades required are expected to cost approximately \$1,000,000. The City does not currently have funds appropriated for the required system upgrades. This project can not advance to Final Plan Review until either

the Applicant covers the upgrade costs, or Council approves appropriate funding allocation, or a combination of the two.

- 2) ***Prior Sketch Plan Comment:*** *The Fire Department will require emergency vehicle access around 50-75% of the proposed building/s. Deputy Fire Chief Dexter mentioned that the proposed building/s could be shifted to the south and fire access drives at both ends of the building/s.*

Since the Sketch Plan Review the Applicant has met with the Fire Department and have revised their plans to provide emergency access on three sides of the building, as shown below. The below plans are being slightly modified at the Fire Department's request, and the proposed Conditions of Approval include Chief Best's recommendations. These minor changes will be incorporated into the plans provided to the Planning Board for signature and recording.

Amended Site Plan Illustrating Emergency Access on Three Sides of the Proposed Buildings

Below are Fire Department's recommended Conditions of Approval (COA). The above plan shows the locations of the two (2) fire access lanes, one located on each side of the building. Although the locations of the proposed fire access lanes are acceptable to the Fire Department, the pavement with is dimensioned at eight (8') feet in width. Fire lanes are required to meet the following standards:

- A. *Fire lanes shall be a minimum of twenty (20') feet in width and constructed to support the weight of the City's heaviest apparatus.*
- B. *The emergency access isles at the sides of the building/s shall project beyond the rear of the building for adequate fire coverage.*
- C. *The Fire Department will require the building's fire connections and sprinkler room/s shall be located / accessed on the front of the building/s for easy emergency access.*

6. STAFF RECOMMENDATION

Staff is thrilled that we were able to overcome the sewer issues and WILL be able to provide the Applicant an "Ability to Serve" letter. Although a couple of minor site changes are required, Staff is
